

Code To Learn partners with InspireTech

Code To Learn has partnered with InspireTech to form an alliance to reach and encourage more students to take advantage of digital skills training offered by CanCode.

CanCode aims to equip Canadian youth, with a focus on inclusion of underrepresented groups, with the skills they need to be prepared for further studies. This includes advanced digital skills and science, technology, engineering and math (STEM) courses, leading to the jobs of the future.

This initiative aims to create a strong, more resilient Canada by providing youth with a pathway to employment, with a focus on inclusion of underrepresented groups, including girls, Indigenous youth, Black youth, youth with disabilities, and youth living in rural, remote and Northern communities.

Code to Learn is happy to partner with InspireTech in meeting these CanCode objectives. Selected learners will be granted access to InspireTech.ca at no cost as a part of this initiative.

To apply, email kyle@inspiretech.ca
